Experience

March 2017– Feb 2022 @ Biztech Consulting & Solutions,
Ahmedabad

Senior Software Engineer

- Orchestrated efficient large-scale software deployments.
- Planned and developed interfaces that simplify overall management and offered ease of use.
- Led software development initiative as subject matter expert and primary point-of-contact for project management staff.
- Revised, modularized, and updated old codebases to modern development standards, reducing operating costs and improving functionality.
- Gathered and defined customer requirements to develop clear specifications for project plans.
- Trained and mentored junior developers and engineers, teaching skills and working to improve overall team performance.

May 2015–January 2017 @ KeshavInfotech, Rajkot

Software Engineer

- Exhibited strong technical aptitude and application expertise resulting in optimized performance, continuous improvement recommendations, and product innovation.
- Collaborated with clients to define solution requirements, accounting for applicable development variables.
- Analyzed proposed technical solutions based on customer requirements, budget, and product goals.

Accomplishment

Appreciation certificate for learning and development in Symfony framework.
